

# *celebrating our babies*

**Dominican Hospital  
Foundation.**

A Dignity Health Member

## Every birth reminds us of just how *precious* life is.

Dominican Hospital Foundation has developed a beautiful way to commemorate babies born at Dominican, Community, or Sisters Hospitals. We invite you to consider purchasing porcelain tiles for \$1,000 each to celebrate births. Multiple porcelain tiles may be obtained to recognize several children or various generations.

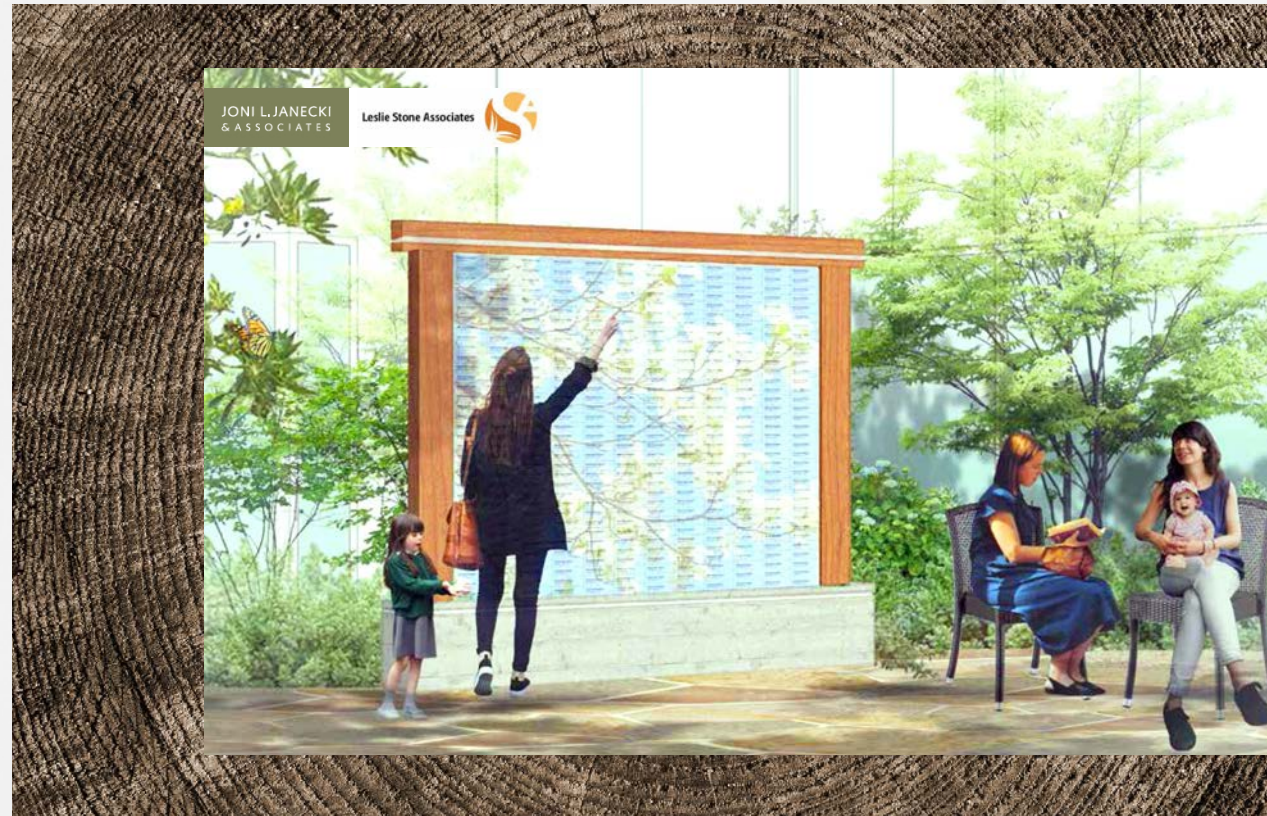

This special wall, Celebrating Our Babies, will be located in the Dr. Joseph T. Anzalone Family & Newborn Care Courtyard as part of the Healing Courtyards project that will transform several garden spaces throughout Dominican Hospital.

Randy and Janet Krassow have created a generous “challenge gift” to match the first 100 gifts of tiles honoring births at Dominican.

“ Our hope and prayer is that through our gift and your generous matching donations, our community will be encouraged to honor the babies in their lives and help make this healing garden a reality.”

- Randy & Janet Krassow

Enclosed in this announcement is a response card, which is a miniature version of the actual 2”x 8” porcelain tiles to be placed on the wall. We invite you to complete the form and return it to the Foundation office in the enclosed response envelope.

Inspired by the redwoods of the Santa Cruz mountains, this healing courtyard will allow new parents and their babies to enjoy fresh air and nature, while reducing stress. According to scientific research, gazing at gardens reduces stress levels, the need for pain medication, and the length of hospital stays.

**Thank you for your support**
